

CAPABILITY STATEMENT

SUMMARY

Blue Sky delivers the IT solutions, advanced cyber security services, and end-to-end business solutions support that enhance enterprise security and improve enterprise performance for our federal clients.

CORE COMPETENCIES

IT Solutions

Holistic IT solutions from infrastructure engineering to web application services

- Application Development (Agile, C++, .NET, JAVA, Pivotal, Ruby Rails, MUMPS, MySQL, Oracle, SQL Server, AWS, Azure, Google)
- Data Engineering and Analytics (Hadoop, MapReduce, Mongo, Postgres, R, Python, Kafka, NiFi, Spark, Tableau)
- Web Services (HTML, SSL, HTTPS)
- Infrastructure & Engineering (DSIM, enterprise backup and disaster recovery)
- End-User Help Desk Support (Tier 0-4)
- Independent Verification & Validation (IV&V)

Cyber Security

Advanced cyber security services that enhance security posture

- Cloud Security
- Policy Compliance
- Risk Management Framework (RMF)
- Industrial Control Systems/Supervisory Control and Data Acquisition (ICS/SCADA)
- Security Control Assessments (SCA)
- Penetration Testing

End-to-End Business Solutions

Business operations support that improves performance and enables the mission

- Strategic Planning
- Project Management (Project Planning/Tracking/Financial Management, Requirements Management, Business Analysis)
- Acquisition Support
- Architecture
- Process Design/Improvement
- Organizational Change Management
- IT Service Management
- Performance Management

CONTRACT VEHICLES

- GSA MAS Schedule - Includes SINS formerly known as Schedule 70 (GS-35F-052GA) and PSS (GS-10F-0038R)
- 8(a) Sole Source and Set-Aside
- HUBZone/EDWOSB/WOSB Sole Source and Set-Aside

KEY DIFFERENTIATORS

Proven prime experience delivered by large business-seasoned leadership team leveraging best practice methodologies and certified processes

- Prime experience—federal, state, and local
- ISO Quality, ITSM, and Information Security certifications at the corporate level
- Numerous PMP, ScrumMaster, and ITIL certifications held by staff

Transition experience on over a dozen programs

Relentless focus on high quality support

- Demonstrated by 95% customer satisfaction rating across client base

Demonstrated success recruiting and retaining staff with rare skill sets and clearances

- Rapid recruiting and hiring capability
- 100% capture rate for desired incumbent staff
- Prime and subcontractor experience recruiting and managing personnel with clearances ranging from Public Trust to TS/SCI with Poly for civilian, DoD, and intelligence agencies
- Dedicated, highly skilled recruiting staff

CAPABILITY STATEMENT

PAST PERFORMANCE

Defense Intelligence Agency (DIA) Operations Command and Control Hybrid Organization (OC²HO) – Prime contractor Blue Sky designs, architects, and delivers a micro-services platform to support data ingest, conditioning and management in support of persistent Intelligence, Surveillance, and Reconnaissance operations. Using an Agile project management construct, our DevSecOps team creates and deploys a wide variety of services across multi-domain cloud computing environments.

National Institutes of Health (NIH) Solution Delivery Management – Prime contractor Blue Sky's Technical Project Managers leverage decades of application development and cloud architecture experience to provide the insights, technical support, and assessments that facilitate the successful delivery of National Heart, Lung, and Blood Institute clinical and business IT solutions.

Prince George's County Office of Central Services (OCS) Acquisition Support – Prime contractor Blue Sky provides highly specialized acquisition expertise and staffing support. We support strategy development, draft SOWs, digitize documents, and work with County clients to clarify requirements and explain the acquisition process. In under 4 months, we have helped OCS to reduce its contract backlog by over 75% and enhanced continuity of operations by reducing operational risks.

Defense Intelligence Agency (DIA) Enterprise Software/Hardware – Prime contractor Blue Sky provides full-spectrum asset management support to include acquisition analysis, procurement facilitation, records management, inventory management, and compliance support.

WHS Web Design and Content Management – Prime Contractor Blue Sky maintains Pentagon Force Protection Agency (PFPA)'s public-facing website, Extranet, and internal intranet websites. Our support involves evaluating and recommending a new Content Management System (CMS), migrating existing websites to the new CMS, conducting training to update the CMS, and developing workflow processes for updating content.

Defense Information Systems Agency (DISA) Portfolio Management and Engineering Support – Prime contractor Blue Sky supports the DISA Cyber Development Directorate in its oversight of a portfolio consisting of over 50 projects. We conduct forward-looking architecture planning; define and help stand up organizational governance constructs, consisting of oversight and approval processes; provide Configuration Management analyses; and facilitate Cybersecurity transparency.
