- Web Services (HTML, SSL, HTTPS)
- Infrastructure & Engineering (DSIM, enterprise backup and disaster recovery)
- End-User Help Desk Support (Tier 0-4)
- Independent Verification & Validation (IV&V)

Cyber Security

Advanced cyber security services that enhance security posture

- Cloud Security
- Policy Compliance
- Risk Management Framework (RMF)
- Industrial Control Systems/Supervisory Control and Data Acquisition (ICS/SCADA)
- Security Control Assessments (SCA)
- Penetration Testing

End-to-End Business Solutions

Business operations support that improves performance and enables the mission

- Strategic Planning
- Project Management (Project Planning/Tracking/Financial Management, Requirements Management, Business Analysis)
- Administrative Support
- Acquisition Support
- Technical Writing and Editing
- Process Design/Improvement
- Organizational Change Management
- IT Service Management
- Performance Management

CONTRACT VEHICLES

- GSA 8(a) STARS III (47QTCB22D0089)
- GSA Schedule 70 (GS-35F-052GA)
- GSA PSS (GS-10F-0038R)
- 8(a) Sole Source and Set-Aside
- HUBZone/EDWOSB/WOSB Sole Source and Set-Aside

KEY DIFFERENTIATORS

Proven prime experience delivered by large business-seasoned leadership team leveraging best practice methodologies and certified processes

- Strong Federal prime experience — DIA, DISA, DOT, FDA, NIH, NGA, and WHS
- Over 20 years of experience supporting Federal agencies
- ISO Quality, IT Service Management, and Information Security certifications
- Highly-skilled and certified personnel utilizing proven, best-practice aligned solutions

Committed to investing in innovation and employee growth

- Drive innovation through partnerships with colleges and universities
- INSA 8(a) Innovation Showcase Finalist (highest award)
- Invest in employee professional growth

Demonstrated success recruiting and retaining staff with rare skill sets and clearances

- Rapid recruiting and hiring capability
- High rate of success capturing desired incumbent staff
- Ability to meet surge demands
- Proven strength in recruiting/retaining cleared personnel through the TS/SCI clearance level

U.S. Small Business Administration

Suburban Maryland Small Business Person of the Year

CAPABILITY STATEMENT

PAST PERFORMANCE

Department of Transportation (DOT) Sector Risk Management Agency Support Services – Prime contractor Blue Sky supports DOT’s role as a Co-Sector Risk Management Agency (Co-SRMA)—alongside the Department of Homeland Security (DHS)—for the Transportation Systems critical infrastructure sector. We support the development of the Transportation Sector Infrastructure Protection Plan providing project management, interview facilitation, technical writing, analytical, and administrative support. We also support the performance management process for the plan.

National Institutes of Health (NIH) Solution Delivery Management – Prime contractor Blue Sky’s Technical Project Managers leverage decades of application development and cloud architecture experience to provide the insights, technical support, and assessments that facilitate the successful delivery of National Heart, Lung, and Blood Institute clinical and business IT solutions.

Prince George’s County Office of Central Services (OCS) Staffing Schedule – Prime contractor Blue Sky provides general and specialized administrative support in the forms of medical billers, administrative assistants, account clerks, central referral specialists. We support the smooth function of numerous offices within Prince George’s County.

Defense Intelligence Agency (DIA) Enterprise Software/Hardware – Prime contractor Blue Sky provides full-spectrum asset management support to include acquisition analysis, procurement facilitation, records management, inventory management, and compliance support.

Washington Headquarters Services (WHS) Web Design and Content Management – Prime Contractor Blue Sky maintains Pentagon Force Protection Agency (PFPA)’s public-facing website, Extranet, and internal intranet websites. We evaluated, recommended, and implemented a new Drupal Content Management System (CMS), migrating existing websites to the new CMS, conducting training to update the CMS, and developing workflow processes for updating content.

Defense Intelligence Agency (DIA) Operations Command and Control Hybrid Organization (OC²HO) – Prime contractor Blue Sky designed, architected, and delivered a micro-services platform to support data ingest, conditioning, and management in support of persistent Intelligence, Surveillance, and Reconnaissance operations. Using an Agile project management construct, our DevSecOps team created and deployed services across multiple cloud computing environments.
